Dear Neighbor:

Close to thirty years ago, the Borough acquired a small piece of property along the Arthur Kill with the hope of one day transforming it into a waterfront park, that would offer our residents access to recreational opportunities along an important natural resource. For over a decade after the acquisition the property remained undeveloped and unutilized.

We believed that had to change, and after our administration was sworn into office, my team and I became committed to creating a waterfront park that would rival any other in central New Jersey.

The results have been remarkable!

Where once stood a dilapidated industrial concrete pier amidst abandoned commercial properties there now exists a waterfront park which boasts a 1100 ft. fishing pier, a boat launch, a miniature

golf course, a golf putting green, volleyball and bocce ball courts, a sensory garden and a soon to be expanded river walk that will stretch almost 2 miles along the water. Carteret Waterfront Park now hosts concerts and community festivals that draw thousands of residents and visitors every year.

I am happy to report that we have reached another important milestone in the development of Waterfront Park. Work is nearly complete on our new municipal marina. The marina will further enhance opportunities for recreational use and provide additional economic stimulus to Carteret.

Sincerely,

Mayor Dan Reiman
